Birmingham International Center
[1728 Fifth Avenue N, Birmingham](#)

No Cost to Attend.
Lunch will be provided.
Registration is required.
Parking available on 17th St N and 5th Ave N.

Poland constitutes a market of over of 38 million people located in the heart of central Europe, sharing borders with both “new” EU and “old” EU-15 countries and markets to the East including Ukraine, Belarus and Russia. U.S. companies are active in Poland, having invested heavily since the early 1990’s after the country’s transition from communism to democracy and the establishment of a market-driven economy. In addition to the size and location of the domestic market, and the access it affords to the larger EU market, Poles continue to demonstrate a strong affinity for the United States and its products.

Abundant opportunities remain for U.S. firms in Poland, primarily in these sectors:

- Aerospace
- Automobile Parts & Components
- Airport Technology and Consulting
- Bio-Technology
- Construction
- Cosmetics
- Defense
- Electrical Power System
- Information / Technology
- Plastic Processing
- Renewable Energy: Wind Power and Biomass
- Safety and Security

The keynote speaker for this event is Mr. Zbigniew Kubacki, Minister Counselor & Head of Investments and Trade, Embassy of the Republic of Poland in Washington.

To register, please contact Mrs. Iris Gross at 205-252-7652 or igross@bic-al.org

This event is brought to you by the Birmingham International Center, in conjunction with the Export Alabama Alliance and the Polish American Chamber of Commerce - South.
